

artSPACE CLEVELAND

In June, a group of artists, all renters of their studio space, met to get information on the Artist Ownership Initiative to own an artist studio/ house.

The design of the studio/house suited their needs with one long space on the first floor and good daylight, and a second story loft to live in. The full basement could be used for storage or more work space.

They liked the area located in the heart of the city's Arts Quarter and near CSU and the downtown. The concern was that the artist studio/house, built on vacant land bank lots, would fit architecturally into the neighborhood. Pictures of the existing homes in the area showed a similar style.

The next step would be for the artist to pre-qualify with a lender for a mortgage loan - not an easy step for most artists.

ArtSpace-Cleveland will arrange lender(s) to come to a meeting with artists to provide information on how low-to-moderate income people can become stakeholders in the community.
